LTD**

QUALITY MATTERS

Project Description:

The full refurbishment and restoration project aimed at preserving the historical integrity of the property while enhancing its functionality and aesthetic appeal. This project included excavation of double basement to the main house and single basement to garden studio, internal wall alterations, refurbishment and fit out of garden extension room, skylight installation across the floors to bring natural lighting, full spec implementation, and design by Urban Infill London Architects.

Throughout the project, meticulous attention is paid to preserving the historical features and character of the property, while integrating modern amenities and design elements to meet contemporary standards of luxury and comfort.

Project: Elsworthy Terrace
Location: Primrose Hill, London
Year: 2019
Designer / Architect: Studio 1

Project Description:

The terrace house refurbishment near Primrose Hill is a comprehensive renovation project aimed at enhancing both functionality and aesthetic appeal. This included optimizing basement space, installing structural steel beams for a rear extension, and restoring historical features like mouldings and cornices. Skilled craftsmen preserve authenticity while updating for modern comfort.

The result is a beautifully restored terrace house that seamlessly combines historical charm with contemporary luxury, offering an exceptional living environment in North West London.
